

APPENDIX C – RELATIONSHIP DIAGRAMS

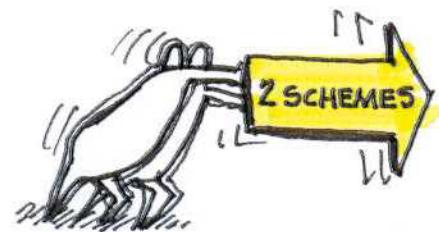

The consulting architect hired by the California Residence Foundation prepared relationship diagrams for the two programmatic approaches discussed in the Planning and Program Guide section of this report. The two approaches are:

- Public and Private Space
- Private Residence with Reception Space

Appendix C contains relationship diagrams for the two programmatic approaches. These diagrams are not floor plans, but they do illustrate adjacency requirements of the different spaces that are described in Section 6.1 of the planning and program guide. This planning information will be used during the project design phase.
